**MARION E. SPARKS WRITES
BOOK ON CHEMICAL WORK**

Miss Marion E. Sparks, who is librarian at the Chemistry library and a graduate of the University, is the author of a book "Chemical Literature and Its Uses", recently published.

The book which covers the work outlined by Miss Sparks in chemistry 22 attempts to give a resume of the importance of reference work in chemistry. It is unique in character and has received favorable comment from several magazines.

That the work has attracted wide attention is evidenced by the fact that Miss Sparks has received orders for the book from many parts of the United States and Europe. University libraries, public libraries and industrial chemistry libraries are chief among those who are sending in requests about the work.
