

## **Applied Health Sciences Collection Descriptions**

The collection is maintained by the Applied Life Studies Library, although there are interdisciplinary collection activities occurring in the Education & Social Sciences, Biology, and Health Sciences Libraries.

The collection supports the teaching and research of the College of Applied Life Studies and the Department of Dance. The collection consists of approximately 96,000 volumes, the core collection of approximately 23,000 volumes, 16,000 uncataloged microforms, and 386 cataloged microfilms are located in the Applied Life Studies Library. Older and/or supplementary materials are housed in the Bookstacks, and complementary collections housed in the Education and Social Sciences, Biology, Health Sciences, and Undergraduate Libraries.
